

# The "Franklin"

from \$call for details

Try to find wasted space inside the Madigan Grace. You'll love this home for its easy layout, sun-filled interior, and contemporary appointments.

There's plenty of curb-appeal with this traditional craftsman style home.

Walking through the front-door, the large open foyer welcomes both guests and family into it's spacious interior. Featuring a flexible room which can serve as an office, living room, or family den on one side and a formal dining room to gather with family and friends.

As you explore the home, one thing becomes clear - this home is excitingly packed with amenities. A large open family room and large

kitchen with island make dinner parties or a get-together a breeze. Four bedrooms and a gathering room leave plenty of private space for the family, and for the owners, a large tray master bedroom leads to the master bathroom, which features a large walk-in closet, separate spa tub and shower, and dual vanities.

This home was designed to create minimum wasted space in construction. After we completed the drawings, *We nailed it!*

**Additional Concepts Include: Two-Story Family Room, 3rd Full Bathroom on 2nd Floor, Grilling Porch on Main Level, Main Floor Laundry Room, Multiple Exterior Elevations and Many Additional Custom Options.**

we build on your lot...or ours!
